Associate Justice Matthews Dead.

His Untimely End Regarded as a National Calamity.

President Harrison's Message to the Deceased's Family. Words of Sorrow and Eulogy Uttered

Jurist-Funeral Arrange-

By Telegraph to The Times.

WASHINGTON, March 22.—[By the Associated Press.] Justice Stanley Matthews died at 10 c'clock this morning. The last change in his condition occurred yesterday afternoon at 3 c'clock. In the morning he had been feeling comfortable and cheerful. At that hour, however, the intense pain which marked the periods of his decline recurred and never left him until death brought relief. Dr. William W. Johnston was summoned, and, finding the patient suffering so intensely, administered opiates which, toward morning, induced a state of which, toward morning, induced a state of semi-consciousness, in which he remained until the end. Occasionally he would partially revive and recognize those near him by a glanee or pressure of the hand, but a relapse soon followed. For a number of hours previous to death he was practically unconscious. In his last hours the dying Justice was surrounded by the members of his family.

The remains will be interred in the family lot at Spring Grove Cemetery, Cincinnati, but the details are not to be perfected until the strival of the dead Justice's oldest son, Mortimer Matthews of Cincinnati, and his youngest daughter, Grace, wife of Horace Cleveland, Assistant Unites States District Attorney at Cincinnati and nephew of Justice Harlan.

The engagement of Miss Matthews and Justice Gray was announced this week, and the marriage was expected to occur shortly.

Announced in the supreme court.

the marriage was expected to occur shortly.

ANNOUNCED IN THE SUPREME COURT.
Shortly after 10 o'clock this morning intelligence of the death of Associate Justice Matthews reached the Supreme Court room. The officers immediately authorized the draping in black of the seat lately occupied by the Associate Justice. When the hour of 12 arrived, the court assembled as usual. Upon taking his seat, the Chief Justice made the following announcement: "The court has received the melancholy intelligence of the death of its beloved member, Justice Matthews, in this city, at 10 o'clock this morning. No business, therefore, will be transacted, and the court will adjourn until Tuesday."

HIS LAST ILLNESS.

WORDS OF EULOGY. The death of Justice Matthews was the subject of conversation among Senators to-day, many of whom had served with him during his term in the Senate, and on every hand words of regret and eulogy were heard.

supreme Court. His death is a great loss to the bench and country.

Mr. Hoar: There was some difference of opinion as to the expediency of Justice Matthews's appointment when he went upon the bench. This was due to fear that his judicial opinions might be blased in favor of the great railroad interests which he had so larrely represented as counsel. In ever myself shared this fear for a moment. Judge Matthews has taken his place in the highest rank of magistrates who have sat upon the bench of the Supreme Court of the United States from the beginning of the Government. It has never occurred to anybody since his appointment to question his absolute impartiality. Every intelligent man will now agree that he was in his rightful and appropriate place in that tribunal to whose arbitration all interests of the country are submitted, and which keeps the forces of State and Nation alike within their appointed bounds.

of loss and bereavement which you feel will be shared by our people. I have known Justice Matthews for many years, and had a very high appreciation of his character and learning. That you may be comforted and sustained in this hour of trial is my most sincere prayer. Very truly yours, (Signed) BERJ. HARRISON.

COLUMBUS (O.), March 22.—The most profound regret is apparent in this city over the death of Justice Matthews. Both houses of the General Assembly adopted appropriate resolutions and adjourned to Monday. The flag on the Capitoi was placed at half mast.

THE FUNERAL ARRANGEMENTS.

The arrongements for the funeral were practically concluded this evening. Religious services will be held at his late residence on Connecticut avenue on Monday afternoon at 1 o'clock. They will be brief and simple, and will be conducted by Rev. Dr. Hamilin, pastor of the Church of the Covenant. At the conclusion the remains will be removed to the Baltimore and Ohio station for transportation to Glendale, O., by way of Cincinnati. Religious services will be held there at Christ Episcopai Church, under conduct of the Rev. Dr. Price, the rector, on Tuesday afternoon, and the remains will then be removed to Spring Grove Cemetery for Interment. Members of the Supreme Court will accompany the remains as honorary palibearers, and the messengers of the Court will be the active palibearers.

Said one today: "The filling of this vacancy is an important matter and the President will want time to consider it carefully. The court has been without the presence of Justice Matthews for almost a year, and it will shortly adjourn for the Justices to go on their several circuits, and it is there the services of Associate Justices are in demand for the expedition of business.

The succession to the vacancy is already discussed, there being two programmes laid out by those who talk.

One is that Justice Gresham, now judge of the circuit comprising the States of Wisconsin, Illinois and Indiana, will be nominated for Associate Justice. He would in turn be succeeded by Judge Woods, leaving a vacancy to be illed in the district of Indiana. The other programme includes the transfers of the Attorney-General to the Supreme Bench and of Secretary Noble to the head of the Department of Justice, and of Assistant Postmaster-General Clarkson to the Interior Department.

A FACTORY BURNED.

Panic Among the Operatives—Nearly All Escape.

St. Louis, March 22.—[By the Associated Press.] Fire broke out this afternoon in the Standard Bagging Factory, on Stoddard avenue, near Twelfth. The whole concern was a group of old buildings, with very little fire protection. Owing to the inflammable nature of the buildings and contents the flames spread rapidly, and the wildest panic ensued amongst the 200 employés, most of whom were girls. A few men employed in the buildings worked bravely and succeeded in leading the panic stricken girls through the smoke and flames to a place where they could drop out to low

Charles Gufran remained on the third floor too long and found all means of escape cut off save by the window. He took this only chance, jumped, and was terribly injured by the fail, but will not die.

SCRANTON (Pa.), March 22.—(By the Associated Press.] The Pennsylvania Coal Company informed the miners tonight that a "shut-down" had been decided upon, that a "shut-down" had been decided upon, to take place at once. The suspension affects nearly 2000 men. The officers of the company say the "shut-down" is only temporary. Old miners assert that in 11 years there has not been so continued a period of duliness as at the present time. For the past six months the men have been working on quarter time. Their earnings have not exceeded \$15 a month and have frequently fallen as low as \$6 a month. The miners as a rule live in rented houses, the monthly rent of which averages from \$6 to \$8, leaving not more than \$9 at best with which to support their families.

All Interest Centering Around the Police Commission. Yesterday was, in some respects, an eventful one in municipal affairs. The that nothing had been done, subsequent events proved that such was not the case, and that a great deal had been accomplished. A guard of police had been put around the City Clerk's office, been put around the City Clerk's office, and early yesterday morning they took possession of the office and turned it over to Mr. Teed, who entered on the discharge of his duties. Mr. Styles saved an exception by entering a protest. It was stated that Chief Cooney had refused to obey the orders of the commission in this regard, and, in consequence, that he had been removed and Capt. Emil Harris placed in charge. All of the commissioners denied that this had been done, but there was evidently something in the story, as Chief Cooney, although he was about the station all day, did not perform any of the duties of his office, nor did he positively deny that he had been supplanted by the Captain.

Later in the day, Col. Morford called on Street Superintendent Drown, and on that official being shown that he dould protect his bondsmen by giving min his place under protest, he gracefully acquiesced, and stepped down and out.

Mr. Dockweiler also surrendered his place as City Surveyor, and the new government was thus put in entire possession, the transfers being made without any undue excitement. Considerable interest was manifested in the Council proceedings, but they were secret, and asthing could be ascertained until the noon hour, when they opened the doors, passed the ordinance relating to the police force and fixing salaries, and adjurned to Monday.

The proceedings of the Fire Commission were without special interest, as the programme had been previously arranged, and everything else has been considerable to Mindows and the has paid all except about \$3000, the last payment for the same.

The meeting lasted some two hours, and when the members came out each and every one positively declared that absolutely nothing had been done; that they had merely talked over some rules, and that nothing had yet been agreed upon in regard to the Chief. It was stated that another meeting would be held today.

Last night, however, the members again caucused, part of them in Mr. Hazard's office and part in Mr. Lindley's. Maj. Furrey went home at about 10:30 o'clock, but at midnight Messrs. The other members of the commission do not wish to antagonize the Mayor, but they think that his strong personal friendship interferes with his judgment, and, while they would be willing to give in, if it were possible, they feel that they cannot do so, as they fully realize that they are as much responsible as the Mayor, and have as much at stake. It is probable that the question will be settled today. Maj. Furrey now holds the balance of power, and on his shoulders, to a great extent, rests the responsibility for the next Chief.

FIRE COMMISSIONERS.

Strohm Elected Chief and Miles First Assistant.

The new board of Fire Commissioners met in the Mayor's office yesterday afternoon at 2 o'clock, with all the members present. Mr. Keefe then nominated Thomas Strohm for Chief, and, on motion, that gentleman was unanimously elected, there being no opposition.

Mr. Kuhrts moved that the commission then proceed to the election of assistant chief.

A long debate ensued, after which the application of William E. Stoermer was read. This was followed by a long debate, when Mr. Kuhrts nominated C. G. Miles for the position.

This was followed by another debate, during which Mayor Hazard paid a high tribute to Mr. Miles, and after a long talk, the matter was brought to a vote, Mr. Miles being elected by four votes, Mr. Lovell asking to be excused from voting.

Mr. Hazard explained his vote by saying that it had been agreed that, as under the charter, it was intended that the department should be non-partisan, and the Democratic members had voted for the Republican choice for Chief, they were entitled to the second place. There being no further business before commission, an adjournment was had, subject to the call of the chairman.

A meeting of the Park Commissio has been called for 9:30 o'clock this morning. As there is comparatively little patronage attached to this board there has been no hurry about calling

own a majority of the coast steamers and short railroad lines in the north that run to the interior and have been the means of developing a great deal of fine country, both in Oregon and Washington Territory.

The head men have had their eyes on projects for improving their business in Southern California for some time. They intend to branch out, and they will not only build several short lines in Southern California, but they will put on a number off additional coasters, and will make a vigorous effort to do something for the harbors down here that have been allowed to lie idle so many years.

If the managers cannot purchase a road that is already build from Los Angeles to the coast, they will apply for a franchise and build a road as soon as possible. They were negotiating all day yesterday for the Los Angeles County Railroad, which runs from the Sisters' Hospital down to Santa Monica, but it was impossible to tell what the result was, as all parties refused to talk.

The visitors will go to San Diego today on important business, and when they return they may be able to make public their projects. At any rate they have made up their minds to institute many improvements in Southern California, and especially in

Kimball, L. H. Ryan and 85 others.

It takes a good deal of courage to borrow \$21,000,000, but that is what has just been done by the Northern Railway Company. The Chronicle of Wednesday last says:

"Col. C. F. Crocker of the Southern Pacific Company was interviewed yesterday in regard to the consolidation and mortgaging of the Northern Railway Company's lines. He said it was done for the reason that it was difficult to dispose of the bonds of small companies undertaking new enterprises, their market being restricted. By bunching a lot of such roads together, however, it was easier to place panies undertaking new enterprises, their market being restricted. By bunching a lot of such roads together, however, it was easier to place their bonds, and construction could be undertaken with greater facility. The new mortgage of \$21,000,000, of which the Union Trust Company of New York will be the trustees, not only covers the Northern Railway and the roads with which it has been grouped, but will also cover lines that have not yet been constructed. One of these is the projected road into Lake county and another line that has been planned to enter Round Valley and Humboldt county. All of the old mortgage bonds of the companies included in the consolidation will be retired and the new bonds will be issued in their place. Only about \$3,000,000 of the whole \$21,000,000 have been issued. There is no immediate action to be taken with reference to the construction of the proposed lines. They will be commenced and extended from time to time, as the company deems necessary for its best interests in building up traffic.

"Mr. Crocker said that it was more than likely that nothing would be done toward the further extension of the Santa Barbara line beyond its present terminus at San Margarita. The country through which the line would have to go was, he said, mountainous and sparsely settled, so that at present it would hardly warrant so great an expenditure as would be necessary to build the line. It would, however, be constructed eventually.

"Orange shipments have been interfered with to a great extent by the rainy weather and washouts. Freight agents say that as soon as the tracks get in good condition again, a large number of shipments will be made by special train. All kinds of freight, except that of a perishable nature, has had to take its chances of late.

NEW LITIGATION

Mrs. Shepherd Sues to Stop the First-street Cut. Several months ago J. F. Young and the San Fernando Valley Improvement Company entered into an agreement relative to the purchase of quite a large tract of land by the latter. The agreement was formally made, and both parties entered upon the fulfillment of its terms. As time passed, however, there were disagreements between the principals. The matter culminated yesterday in the institution of a suit by Mr. Young against the San Fernando Valley Improvement Company. It is in the nature of a suit for damages, to recover judgment against the defendants for \$82,000, which, the plaintiff alleges, he has been damaged by the refusal of the defendants to comply with their agreement.

the defendants to comply with their agreement.

A \$30,000 suit was begun in the Superior Court vesterday by Mrs. Francisca W. de Shepherd. She has sued the city and D. F. Donegan for the amount mentioned, and a restraining order to prevent them from cutting First street through the hill west of Fort street. The reasons for stopping the work, which, it is alleged, has already been begun, are very long. A full description of the hill through which the cut is to be made, and the manner in which it will damage the property of the plaintiff, are given. She claims that her lots, which are now worth \$30,000, would be very seriously injured by the cut, to a money value of \$15,000. It is also claimed that by reason of the cut, her property will be put in such a precarious condition that it will be absolutely necessary to build a retaining wall will cost \$20,000. The plaintiff alleges that no tender of money has ever been made by the defendants to recompense her for damage that will be done ber property. The matter was brought up before

The matter was brought up before Judge Van Dyke during the day in Department No. 4 of the Superior Court, and he granted a temporary restraining order, and set March 25th for a final hearing. It is understood that a vigorous slight will be made by the plaintiff to secure a perpetual injunction preventing the digging of the cut through the hill.

A suit was begun yesterday by Charles Anderson et al. vs. J. G. Mc-Michael et al. The complaint in-cludes a number of plaintiffs and decludes a number of plaintiffs and defendants, and is brought to recover judgment for materials furnished and work done on a residence at Fairview. ORANGE COUNTY.

A LAWYER BACKS THE OPINION OF "THE TIMES."

The Wiseacre of an Esteemed Contrumpery Twists the Argument and Misrepresents the Law-The Simile of a Bay Horse and a Yel-

Los Angeles, March 22.—[To the Editor of The Times.] The writer is of opinion that you were right in your view of the unconstitutionality of the Orange County Bill. You builded your legal structure better than you w, maybe, but of sufficient strength east to withstand any summer es of retort, similar to that of the learned gentleman who does the light, but interesting law work on the Trib-

une.

The principle that the Legislature cannot delegate its authority in these matters is settled.

The Orange County Bill recites that "with the assent of two-thirds of the voters," etc., there shall be formed a new county, etc., to be called Orange county, etc., provides for all the necessary powers, officers and other incidental machinery for the new county, and then recites that if at an election held for the purpose, two-thirds of the electors voting within the limit of the proposed county vote "against the new county," then the law "shall cease to be of any force or effect."

Now, if in thus submitting the ones-

thirds of the sproposed county within the limit of the proposed county within the limit of the proposed county within the limit of the proposed county with the selectors voting within the limit of the proposed county where it is a wise set of any force or effect."

Now, if in thus submitting the question wiseber this law shall be in force to them also the question whether it is a wise or expedient law, then the law making power delegates it authority, and the enactment is voti.

Measure, decide but that it is a good and wise law? What does a voter detruins who votes against it but that it is inexpedient? If either has a voter detruins who votes against it but that it is inexpedient? If either has a voter detruins who votes against it but that it is not question but what a law?

In make no question but what a law?

In the propose of the county interested, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, therein in some instances, but the event or change of circle, the law is a thirty of the proposed of the county interested the proposed of the county interested in the avenue, which has been dealed to take effect it wise before the poole vote in its favor it is wise afterward. It is wise before the poole vote in its favor it is wise afterward. It is wise before the poole vote in its favor it is wise afterward. It is wise before the poole vote in its favor it is wise afterward. It is wise before the poole vote in its favor it is wise afterward. It is wis

is not necessary to inquire whether those parts of the law can be upheld which relate to the annexation of the territory of the former county to the adjacent county. The proceeding is against one claiming to be an officer of Klamath county, and does not involve this question."

For the purpose of determining whether Klamath county should be disorganized, the vote of Siskiyou county was all right, because it did not involve the expediency of the Klamath-county measure; but on the question as to whether, after the disorganization, the territory could be annexed or not, in voting that it should, the wisdom of such a step is involved, and the validity of that portion of the law is in grave doubt.

Here the people did not make the law dismantling Klamath county, nor did they have any chance to say whether such action was wise or not, but the Legislature said that it was best to do away with that county, if the other county would vote to take care of her. The latter was the event upon which, in the minds of the law-makers, depended the expediency of the law.

This case has no decisiveness for the Orange county matter. It has the same relation to it that the bay horse bears to his owner's yellow dog. The Tribune's courspondent was so anxious to demonstrate your ignorance of the California decisions that he did not deliberate long enough to get acquainted with his own. In conclusion, there is no California decision where this question in precisely the same shape has been presented, one reason probably being that no preceding legislative mother gave birth to a child so ill-shapen, and I think if the Supreme Court ever is presented to it, its life and usefulness will be equally short. There are other reasons why this bill is bad, but sufficient to the day is the evil thereof, in the opinion of one who claims himself to be somewhat of A Lawyer.

The Alhamars of Alhambra. ALHAMBRA, March 18.—[Correspond-uce of THE TIMES.] Last Tuesday evening a reception was given to the Chautauqua Circles of Pasadena by the Alhambra C.L.S.C. The house of George Rice was used for the occasion, and was handsomely decorated with maiden-hair ferms, wild flowers and A short programme was rendered, the numbers being printed on hand-painted satin ribbon, and com-Mrs. Hubbard, a welcome from Rev. H. J. Crist, a reading by Miss Thayer, and a recital from "Œdipus Tyrannus" by President W. C. Weld as "King

and a recital from "Edipus Tyrannus" by President W. C. Weld as "King Edipus," Mrs. George Rice as "Queen Jocarta," Mrs. Whittemore and Miss Phelan as maids of honor, Mr. Whittemore as "Creon," Mr. Deveraux as the blind prophet, and Master Roy Crist as guide.

The rendition of this little programme was something beyond ordinary. Mrs. Hubbard was recalled for a ballad, and the King in his agony and the Queen in her bewilderment were very real.

Being a "Greek evening," a symposium followed the programme.

Thin bread and butter, tied with dainty ribbons and served with salads, jellies and creams, with coffee, made a feast fit for gods and goddesses, mingled, according to old Greek custom, with toasts and jests and conundrums. These last were written on slips of tinted water-color paper, and created much amusement.

The ladies of the Alhambra circle spared neither work nor thought to make the reception what it certainly was, a social success.

POOR MR. HUNTINGTON!

Mr. Huntington's visit among us was distressingly brief, but it was long enough for him to read us a lesson on the rights and duties of Legis latures for which we should be grateful. He has, fortunately, left us something to ponder and ruminate apon in his absence.

"Legislative interference," he tells us, "is the cause of railroad stagna-tion and the depression of bonds and stocks," and he adds, by way of proof of his proposition, that Gov. Stanford, Mr. Crocker and himself "carried Southern Pacific Railroad bonds amounting to \$40,000,000 for five years before they ever sold a dollar's worth." It is to be regretted that he did not specify the five particular years of railroad stagnation he aluded to, and also what legislative in terference he was pointing at, for our nemory is a little defective on both these points; but we do remember distinctly there was, once upon a time, legislative interference in the form of acts of Congress, which enabled Mr Huntington and his associates to carry on railroad operations at an expense of millions of dollars each year right along, without disposing of one dollar's worth of their \$40,000,000 in bonds. Surely Mr. Huntington does not complain of that kind of legislative interference, but he seems to have forgotten all about it. Neither does he remember that he and his associates were all comparatively poor men when the Government entrusted to them the business of building the Pa eific Railroad. It is doubtful if they could have built a mile of road apiece

to their assistance with lands and money. Mr. Huntington now denies Mr. Huntington now denies the right of the public (which really furnished all the means) to have anything to say about these railroads. "If the State has a right to fix rates, it has a right to confiscate property," says this Solon—a most absurd proposition. But Mr. Huntington's railroad company, greater than the State, has, for its own gain confiscated property. But Mr. Huntington's railroad comits own gain, confiscated private prop-

erty times without number. Mr. Huntington affects to believe that for the public authorities to regulate freights and fares is an unwarrantable interference with his company. But that is just what the public authorities always do in the case of a ferry, or toll-bridge, or toll-road, and ferry, or toll-bridge, or toll-THERE is a growing feeling in the does not think so, and if he were a amusing argument against it is that of \$40,000,000 of railroad bonds, on ac-

> The proximate remedy for this state t always strictly adhered to, of affairs would seem to be in the fretance, in a dispatch to the quently-advocated assumption by the ournal, from its Washington Government of the ownership of the railroads. 'Tis true that this would entail a vast increase in the patronage of the President, but such patronage of the President, but such patronage might be made subject to civil-service rules and divided among the States, while the evils of increased patronage by the Government of the country would certainly be far less than the danger of enormous power, concentrated in a few hands, distinct from, and whose interests are at variance

with, those of the people, who are nominally, at least—the Government.
This, as we remarked, is the proxite remedy which suggests it but the ultimate remedy lies in the abandonment of a cult which has become far too popular and general in the United States—the worship of success. As long as Americans, from youth up, are taught to esteem men who have accumulated wealth by usury, or other quasi-respectabl methods, down to wholesale embezzlement, above those "failures" have, during a whole lifetime, struggled to do right and "owe no man any thing," so long will the United States continue to slide down the abyss towards the inevitable, when Money, represented by Power, shall openly laugh at Right, and shall dis-play the deadly claws which it now keeps discreetly hidden beneath a

The Chief of Police has not yet been appointed. There is said to be a difference of opinion on the subject among the members of the Police Commission. We have but to reiterate what we have already said regarding the very great importance of appointing to this office a man who is, like Cæsar's wife, above suspicion. There are a number of worthy candidates for the position, and there is therefore no expuse for the appoint ment of a man regarding whose posi-tion on the gambling question there is any doubt.

There can be no evasion on this question. The people thoroughly understand it. All they ask is the pointment of a clean man to the place—a man who neither has, nor has had, affiliations with gamblers. They expect this of the Police Com-

The Police Commissioners have just now a great responsibility upon their shoulders. They have it in their power to make or mar the fortunes of the local Republican party for years to come. Should they select a good man for Chief of Police, it will confirm the hold which the party now has on the esteem of the people. On the other hand, should they deliberately appoint a gambler to regulate gambling, it will cause the defeat of the party at the next election, as surely as night follows day.

THE TIMES is the advocate of no

particular man for the position. It only desires to see the appointment of a man who is not trammeled and who has the power, as well as the will, to enforce the law.

It would seem to be much more proper that the Government should have a twoice in fixing the charges upon a railroad constructed entirely with Government aid. But Mr. Huntington does not think so, and if he were a man easily moved to tears we might imagine him weeping over the misfortune of not being able to sell, at his own price, for five long years, this \$40,000,000 of railroad bonds, on account of such legislative interference. How distressing it must have been!

It now amounts to \$50,200,000, or \$5,000,000. been daily increasing for several days past. It now amounts to \$50,200,000, or \$5,000,000 more than it was 10 days ago. This increase is due to the great excess of receipts over disbursements since the 1st of the month. The receipts to date aggregate \$23,200,000, while the expenditures during the some period amount to a little over \$12,000,000, including about \$2,000,000 paid out on account of pensions. Unsir recently the receipts and expenditures have been pretty well balanced by the purchase of bonds, but this method of applying the surplus has been considerably hampered of late by light offerings.

Secretary Windom has announced his purpose of continuing for the present at least the system of purchases adopted by in predecessor, and that he would willingly increase the purchase if the offers permitted it. A RAILWAY RULING.

The Interstate Commission Lays Down the Law.

Down the Law.
Washington, March 22.—[By the Associated Press.! The Interstate Commerce Commission, by Commissioner Morrison, rendered its decision today in the case of the Northwestern Iowa Grain and Stock Shippers' Association vs. the Chicago and Northwestern Railroad Company. It states that a railroad company making different rates for the same distances on different branches of its road must justify them by showing that there is a difference in the showing that there is a difference in the cost of carrying on the different branches. A company by ford maintaining rates without the presence of competition on other than equal terms makes or gives evidence that such rate is not too low. The company which has two routes between points cannot lawfully charge more for the dence that such rate is not too low. The company which has two routes between points cannot lawfully charge more for the shorter than for the longer distance. A road can carry freight from points on its main line cheaper than another road can carry over a branch road with separate equipment to and over its main line, and where one of such branch lines must carry in competition with another road from its main line stations, the rate on that branch establishes no criterion for branches not so stimated.

The company gave special rates to corn shippers in Nebraska to points in Ilinois, by means of which, corn reached the seaboard at low through rates. When the company denied, as it did, such special advantages to corn shippers in Iowa it gave unlawful preferences to the Nebraska ship-

WASHINGTON, March 22.—[By the Ass ciated Press.] The Adjutant-General of the Army has published for the information of the army the recent decision by the United States Court in Michigan touching United States Coart in Michigan touching the status of minors who enlist and afterwards desert from the army. In the case at issue a soldier enlisted when a minor, although pratending he was of age, and afterward deserted. He was arrested and courtmartialed. While the proceedings of the court were awaiting raview, the father courtmartialed. While the proceedings of the court were awaiting review, the father of the minor sued out a writ of habeas corpus. The United States Court declined to issue the writ, holding that a minor soldier of the army in confinement under a charge of desertion could not be discharged from military service by the court until he had been released from such confinement. It was also held that the minors' contract of enlistment is not void, but voidable. If he, is over 16 years of age he can be discharged only upon application of his parents or guardians.

When she arrives at Sitka, and communicates with the civil authorities, she will, if the situation is quiet and her presence there not required, continue on northward and devote attention particularly to the whaling fleet and other commercial interests of the United States in waters about Bering Straits and the Arctic Ocean. As whaling vessels usually leave the Arctic in the latter part of September, the presence of the Thetis until then will add security to those engaged in that important industry, and the Thetis will remain until they have taken their departure southward, taking care not to be caught in the ice. Attoracy-General Webster replied that but for the duty he owed those who trusted him, he would not have noticed the charges made by Harcourt. If he were capable of the conduct imputed to him, he would be a disgrace to the English bar. He was private counsel for the Times. It was immaterial whether he had been right or wrong in assuming this position, although it was

in assuming this position, although it was doubtful whether he had been prudent. Redmond's motion to reduce the Attorney-General's salary was rejected. Sir William Vernon Harcourt wanted to know whether the Attorney-General had the letters in which Pigott admitted his inability to stand cross-examination. If Soames had that letter and kept it from the knowledge of the Attorney-General, he (Harcourt) had no hesitation in saying that Soames must be struck off the rolls.

In the course of the Attorney-General's reply the chairman called upon Xavier O'Brien to retire for interrupting. O'Brien denied that he had opened his mouth. The chairman repeated the order to retire. Pinkerton corroborated O'Brien, declaring that the latter had been silent. T. P. O'Connor thereupon protested against the chairman putting the lie to an honorable member without inquiry. The chairman accepted the disclaimer, adding that O'Brien could not deny having repeatedly interrupted loudly, and warning him not to repeat such conduct.

The Attorney-General, continuing, declined absolutely to say whether he had advised the Government on any point. He had never vouched to the Government for authenticity of the letters. Harcourt's argument that counsel ought to satisfy himself of the accuracy of statements witness would make was preposterous. He accused Harcourt of asking questions in this manner because he knew a certain section of the press was only too ready to turn the suggestion into accusations. Bismarck Blames Knappe for the Bismarck Blames Knappe for the Samoan Imbrogilio.

Berlin, March 22.—[By Cable and Associated Press.] The Government has issued a white-book on Samoan affairs. It shows that March 9th Bismarck wrote Herr Steubel, the newly-appointed Consul of Germany to Samoa, describing the conduct of Dr. Knappe, his predecessor in office, as lacking in calmness and coolness and as contrary to the lines of Emperor William's policy, with which Knappe had been well acquainted. Knappe, Bismarck wrote, had apparently lost his head, owing to a letter from Herr Brandels, Tamasese's Prime Minister, published in the last white-book, and the presence of three men-of-war at Samoa.

Beforeigne to Knappe's subsequent pro-

and the presence of three men-of-war at Samoa.

Referring to Knappe's subsequent proposal to annex Samoa, Bismarck reiterates his view that to seek to effect a change in the political situation. In Samoa without consent of England and America would not accord with freaty arrangements. Knappe's action, reverting to the question of annexation, is incomprehensible, because his experience and instructions ought to have shown him that his desire to annex Samoa was opposed to the policy conducted by the Chancellor in comformity with the Emperor's Intentions.

Knappe justified the arrest of the Englishman Gallien on the ground that the latter recommended Mataara to apply to Grey, ex-Governor of New Zealand, for assistance. Investigation proved that Gallien was not aware of the significance of his acts.

Bismarck, in his letter to Herr Stenbel,

lien was not aware of the significance of his acts.

Bismarck, in his letter to Herr Steubel, further said that Dr. Knappe was neither authorized to declare war nor martial law, and, in any cese their could be no question of enforcing the latter against foreigners. His conduct, both toward the agents of other powers and natives, lacked the calmness and coolness indispensable for a correct official. The assumption that the German Government bad authorized such procedure on his part rests on willful misconception or mistake, which it is difficult to explain.

Another point to which he desired to call attention was that Dr. Knappe and Brandeis, German officers, had been "recalled" presumably in disgrace, but really that they should be present in Berlin at the sittings of the conference before a decision is to be made. The appointment of Steubel to replace Dr. Knappe as German Consul-General has been accompanied by an intimation that he will turn out an improvement on his predecessor. By Telegraph to The Times.

St. Louis, March 22.—|By the Associated Press.] A special to the Republic from Wichita, Kan., says: Reports tenight from Okiahoma City state that the boomers, who disappeared from their claims and were in concealment in the woods or in the Indian reservation, have returned with the withdrawal of the soldiers. Each train wrings hundreds that have been hanging along the border in desperation. Excitement at Purcell and on the border is inse, and the people have left their busi-is to hang around the telegraph offices and newspaper offices to hear of President Harrison issuing the proclamation. The number of boomers is augmented by train and wagon loads of would-be-settlers and prospectors. They have been expecting the proclamation each day and when night comes mutterings and disappointment and lamentations are heard on every hand. Of the favorable reports today they hardly know what to say, as they so often have been disappointed.

the tavorable reports today they hardly know what to say, as they so often have been disappointed.

Col. Crocker, who has labored to bold back the invaders, stated that should the President hesitate much longer there would be bloodshed. There are 30,000 white people in the Chickasaw Nation alone, waiting to take up claims in the Territory, and disappointment bas followed disappointment until they are becoming desperate. The boomers are greatly agitated over the efforts to prevent them now going in. The proprietors, who have recently arrived, are taking the names of those who have violated the provisions of the bill by entering upon lands, and intend to appear against them to defeat their filling.

An old man, who had watched a piece of lamost 10,000 old boomers had been formed, and an effort to disposses so any of them would be death to the informant. This league, be says, is secret, and growing in numbers each day, and whether expelled or not, they will hold their claims by force. The situation is certainly critical.

ITALIAN OPERA. A Scheme for Its Revival in This

CHICAGO, March 22.—| By the Associated Press.] John Lavine, manager of the Al-bani Concert Company, is authority for bani Concert Company, is authority for the statement that the next season will see a revival of Italian opera in this country under the most favorable circumstances. This morning he said: "We propose to do what der the most favorable circumstances. This morning he said: "We propose to do what Mrs. Thurber failed in—produce Italian opera on a grand scale, on an American foundation, and thoroughly infused with American ideas. Mrs. Thurber's mistake was in establishing her opera before the school. We are arranging for the prize pupils of the New England School and Chicago Conservatory, and shall make similar arrangements in Cincinnati. We confidently expect in this way to obtain the freshest of the young vocal falent in the country and interest them in the scheme by a sort of civil service plan of advancement. Madame Albani and an American lady will be the leading prima donnas. Some of the other leaders will a tirst, of necessity, be foreigners. The managers expect to put on the stage a company of 180 people. They will open the seasou in New York or Boston with a re-retoire of six operas and increase it to tenduring the winter. They hope after the prize American pupils are assembled in chorus to make it in reality an operatic training school, and, if possible, in the end to produce an ideat American opera company, presenting American operas wholly by Americaus.

OUTLAWS AT BAY. A Band of Desperadoes Surrounded

UNIONTOWN (Pa.), March 22.-[By the Associated Press. A large party of vigi-lantes from Uniontown, York and other points have gone into the mountains near Larklinsburg, where the McClellandtown Marklinsburg, where the McClellandtown robbers are supposed to be camped, with the intention of capturing the outlaws. Both sides are well armed, and if there is a conflict there will probably be much bloodshed. Should an assault fail to surprise the inmates of the camp, the vigilantes propose to surround it and s arve out the gang, shooting any one who makes his appearance with arms. The camp is 30 miles distant.

ance with arms. The camp is 30 miles distant.

This evening word is received that the vigilantes tried to force an entrance into the log house in which the robbers are at bay, during which shots were exchanged on both sides without injury to any one. The robbers refused to surrender, and are prepared to sell tifler lives as dearly as possible and to die if they cannot escape under cover of darkness. Nine men and three women constitute the party in the house. The attacking party has the house well surrounded. Intelligence that the band was corralled spread like wildfire, and soon Sheriff Miller had started for the scene of difficulty with a large posse raised here. The vicinity of the robbers is ablaze with excitement. Men are hurrying there from all parts of the mountains, and with a good leader they expect to finally land the band in-jail.

Strikers.

FALL RIVER (Mass.), March 22.—[By the Associated Press.] The first serious trouble of the strike occurred tonight at the Seaof the strike occurred tonight at the Seaconner mill. This mill is the only one
which has made a determined attempt to
run with "knobstick" help, and the strikers
there have been the only ones in the city to
gather shout the mill to make a disturbance.
When the mill shut down tonight the crowd
near the mill states and along the streets in
the vicinity numbered over a thousand. As
the workmen came out they were greeted
with ordes of derision. Finally the "knobsticks" replied to the taunts in kind. This
was followed by a volley of stones from the
crowd, one of which struck a "knobstick's"
head. The man beside him immediately
turned and fired a pistol in the direction of
the crowd, which promptly scattered and
roplied with another volley of stones. The
police selzed the man with the pistol and
hurried him to the station. No one has been
found that was injured by the bullet, although several were reported injured by
stones.

striking the engineer in the face and nuriting him badly. The special was delayed two hours.

Mr. Huntington said that the reason me gave up the management of the Chesapeake and Ohio road was that he desired to devote more time to his Pacific Coast roads. Speaking of the report that the Southern Pacific had obtained control of the Santa Fé system, Mr. Huntington said: "We have got all the main roads we want, and are not buying up anything of that sort." When asked about the finances of the Southern Pacific, he spoke assuringly of them. In passing over the company's lines he was much piezsed at its condition. Regarding the extension of the line north to Seattle, Mr. Huntington said: "We won't build north of the Columbia River for the present. As for other construction, we have several branch lines projected which will be built when needed."

A New York Club Will Drink the California Vintage.

San Francisco, March 22.—[By the Associated Press.] A letter was received at the headquarters of the Viticultural Commission from Miss Kate Field today, stating that California wines have at last been introduced in the Union Central Club for New York. The wine bill of the club for the year averages \$800,000, Miss Field says, and the use of California wines with or in place of the imported ones will ald the local growers.

Reports from the grape sections of the State show that indications are for an unsually full crop. From Napa Valley the report comes that over-production is looked for unless frosts interfere. The only trouble with vineyardists is stated to be the low prices wine has been bringing. The area in vines has been reduced, however, and this reduction is expected to force higher prices next year.

DRY GOODS FAKIRS

In the Clothing Business!

Every honest, legitimate merchant always holds a feeling of unmitigated contempt towards such schemers and fakirs, that live by their wits and fatten upon the incredulity and ignorance of the public. Certain Dry Goods fakirs in this city are attempting today to sell Clothing, and attempt to make the public believe they are being robbed by the Clothing Stores of this city. Without desiring to give these would-be merchants too much notoristy.

A Few Dry Goods Store Lies!

They i dvertise in yesterday's papers that the old fogles wanted prices that prevailed in he days of "49," and then offered the following baits to the public: "A line of Boys' Suits at \$2.40"-this is the fakirs price

We sell this week, and have sold for the wast two weeks, BOYS' SUITS AT 221 in honest, legitimate goods - no auction trash, such as is found in Dry Goods stores.

They offer another line of Men's Dark Frock Suits at \$7.19, and they impudently as hat Clothing Stores want \$16 for these goods.

Mark the Lie!

WE sell Men's Dark Frock Suits at \$6.50, and warrant every suit to be first-class at the only desire to expose their willful lies.

Cheap Lands. Good Lands. Prices

and Terms to Encourage Settlers.

So much has been said and written about the high prices for ordinary farming and fruit land in Southers California that many Kastern people think that no good land can be had at less than \$200 per acre in any good locality. But if you will call at the headquarters of Simi Land and Water Company you will find that you can buy well watered stock ranges at \$5 to \$15 per acre, and every one of these ranges contains more or less cood farming land. You can buy first-class valley lands for \$30 to \$45 per acre, and amail tracts of 10, 20 or 40 acres, for fruit farms, at about the same price. Colonies who want from 1000 to 5000 acres can be placed on nne lands, suitable for dividing amony their members, at \$25 to \$40 per acre. This commany cares nothing for booms, and asks no inflated prices for their lands. We own nearly 100,000 acres, and have a perfect and undisputed title. The object is to furnish good lands, to actual estiers, at prices within reach of any who can buy land at all, and on terms which will emable men of moderate means to acquire homes in an attractive of healthful part of Southern California. We healthful part of Southern California will be a suited to the second of the same prices within reach of any who can buy land at all, and to the suite of the same prices within reach of any who can buy land at all, and to the suite of the same prices are not rectify on a rairoad, but expect to be before long. But we do claim to ofer better land and more advantages and on easier terms of payment than any other place that has been and more advantages and on easier terms of payment than any other place that has beer brought to our notice. PASADENA, March 22.-[Correspond ence of THE TIMES.] Pursuant to a call from President Parker, the City ard of Trustees met this morning in the Council Chamber to receive the resignation of I. N. Mundell as Marshal and City Tax Collector of this city. The document was read by the Clerk, which mentioned the fact that owing to the want of harmony between the Marshal and the board, and to a pressure of private business, askto a pressure of private business, asking the resignation be accepted, to
take place at once. With but little
discussion it was accepted. This ends
the sore and ill feeling, which of late
has created discord between these officials, which, although never ending
in disruption, always left a great deal
of unpleasantness. Mr. Mundell, as
Tax Cellector, has turned every dollar
Tax Cellector, has turned every dollar in disruption, always left a great deal of unpleasantness. Mr. Mundell, as Tax Collector, has turned every dollar of city money into the not over crowded vaults, and leaves the office with the satisfaction that he has done the best he could, considering the pressure of outside matters. As Chief of Police he was well liked by all the force and had their entire respect and confidence. Since the above was made public numerous applicants have put their names in the field, ready to draw a chance in the lottery where legion is the number. The friends of D. B. McLean and Mr. Wotkyns are circulating petitions for the office for these candidates. And among others are mentioned C. C. Brown, Al Dunsmore, W. B. Van Kirk and others. The salary is only nominal, and when the leanness of the office is known there will be a considerable falling off in the list of applicants. The retiring officer's term would not expire until March 1, 1890.

The gentleman who has been in the habit of tving his horse in a certain inclosure and allowing the poor beast to brave the chill of the night, is owned by an official of this city. Whether that gentleman is in the discharge of his duties at his desk or engaged in playing at game is a question which only the man himself can answer. Certain it is, no one else is meant by the article. This statement is written in vindication of a certain young gentleman to whom gossip has referred as the probable author. THE EQUESTRIANS.

Three-fourths of our people are troubled with dyspepsia or liver complaint in some form or other, which by nature of the disease has a depressing influence on the misd or body, preventing them from thinking or acting clearly in any matter of importance. Indigestion, coming up of food after eating, dyspepsia, sick headache, acidity of the stomach or any derangement of the stomach or liver (upon which the whole action of our system depends) are speedily and effectually overcome by the use of Green's August Flower. The most stubborn cases have yielded to its influence, as thousands of letters received will testify. The immense sale of this medicine is another guarantee of its merits (over a million and a half bottles sold last year). So we ask, will it pay you to suffer from any of the above diseases when you can have immediate relief in the adagust Flower? Three does will prove its worth. It is sold by all druggists and general dealers in the world.

TO CAPITALISTS.

For a short time we offer for sale the famous "Las Penasquitas" ranch sixteen miles from San Dego cuts, comprising about seven thousand scress of it produces annually a heavy volunteer crop of cats.

Most of the land is smooth and suitable for vineyards. The adjoining town and valies of Poway are producing the snear raisin grapes in the State, free from all disease.

Never-failing springs supply water for stock, irrigation and domestic use.

The improvements comest of a large fitteen-room ranch house, earge barn, carriage, tool and chicken house, corrals etc. also crobard of two hundred and fifty bearing orange trees filled with fruit, also poar, peach, prune and clives in bearing; vineyard of two varieties of grapes in full bearing; rare plants surround the house and grounds.

For stock purposes this ranch can be made to pay large interest, and when subdivided will give immense opportunities.

The place is offered as a whole for \$25 per acre all through, or a three-fittle interest will be sold at a slight advance.

ANNUAL TRADE NUMBER.

-CONTAINING-

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book.

The Annual Trade Number of THE TIMES, now ready, is the most complete and in feresting publication of that character ever published in Los Angeles.

ROTABLE FRATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and county; a therough expection of embrating resources—mineral, vegetable, commercial and climatic; a review of the rise s of progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-astate excisement; a carefully compiled exposition of the varied inducements which Southern-California offers to the health-secker, the homselver and the tourist, besides a number of intereviing and valuable special articles on pertinent subjects. It contains more solid information about the country than could be crowded into the compass of a hundred long letters, and for a few cents and the expenditure of a few minutes time in writing the address you can send a friend more information than you could write in a month, even if you had all the facts at hand. For a dollar you can supply ten families in the freezn flast with information that may lead them to you can supply ten families in the freezn flast with information that may lead them to you had all the facts at hand. For a dollar than a normal properties to Southern California, to their ewn and this country sadvantage. Thus, whether viewed from the standpoint of friendship or self-interes: I will be seen that no better use can be made of a dollar than by purchasing the rewift ten copies of the great Annual Trade Number of THE TIMES. For one-tenth of the pleasure embrated to the pleasure embrated in any other way for the same amount of money.

Being free from compileation it is easily cared for, never gets out of order, and it siways ready for use. The most inexperienced can readily manage it. It has all the modern appliances and conveniences that go to make up the sum of excellences, successfully combining simplicity, durability, speed, strength and beauty, notodoing a machine unequaled for case of management and capacity for wide range of work.

THE PREMIUM HIGH-ARM

Is light-running and noiseless, uses A STRAIGHT. SELF-SETTING NEEDLE, and make the double-thread "Look Stitch." It is the perfection of mechanism for homming, felling binding, cording, braiding, seaming, tucking, ruiling, gathering, embroidering, homstite bing, quitting, etc.

It is adapted to every variety of sewing, from the lightest muslins to the heaviest circhs, and will do a greater range of work than any other machine.

The woodwork is unique and attractive is style and substantially made from well seasoned and carefully selected material. Its elevant funish and rich trimmings are in good taste, and earmonize with the excellent workmanship of the machine.

Far more handsome and ornamental than the ordinary style of woodwork, it is at the same time of equal durability, utility and good flaish.

WARRANTEE—The usual five-year warrantee is given to us by the manufacturers, and we in turn guarantee every machine to give full and entire satisfaction.

NO RISK WHATEVER.

Fo great is our confidence and knowledge of the superiority of the PREMIUM HIGH.

ARM that we further agree with every purchaser to REFUND THE MONRY in case full satisfaction is not given by the machine in every particular after a month's trial.

Tailors, Drossmakers, Seamstresses, manufacturers of clothing, shirts, skirts, corsets, umbrellas, etc., will find one of its best recommendations is its special adaptation to their wants and range of work.

The Automatic Tension.

When once properly regulated, will rarely need to be changed, and as a general rule, the whole range of family sewing can be done without any change of tension whatever. This result is obtained by nicely adjusted springs, that will accommodate themselves to the size of thread used.

OUR CLAIMS FOR SUPERIORITY

ARE AS FOLLOWS:

A Device whereby the bobbin can be wound without running the machine saves that ng work and attachments while the bobbin is being filled. A Scale for Regulating The length of stitch, which enables the operator to readily ascertain the length of stitch without testing

A Spring-Tension Cylinder Shuttle, Holding a bobbin that carries a but one hole to thread through, making it the most easily threated shuttle in use. The tension may be changed without removing the shuttle from the machine. The Double Feed Extends on both sides of the needle and permits a greater variety perform its duty—will feed the lightest and heaviest goods with equal precision, and will cross seams and hard places without changing length of stitch or missing stitches. Light Running. On account of the simple mechanical devices employed in its concine, and will be supplied by the simple mechanical devices employed in its concine, and is almost noiseless. It is the simplest, EASIEST OPERATED, best made and most elegantly ornamented machine in the world, combining every requisite to produce perfect work.

Inviting a practical test of this machine we distinctly claim for it a great superiority in plan, material, workmanship, and in its performance. It is unquestionably the most popular pachine now in the market.

CONTRABAND OPIUM.

Consignment Worth \$1200 Un-

claimed. Yesterday in the United States District Court the opium case came up. Several weeks ago, it will be rememered, revenue officials seized 84 boxes of opium which had been concealed in he premises of a Chinaman near San ais Obispo. Yesterday five days' urther time was granted in the case. The object of the continuance is to the the owner of the opium a chance of show up before it is sold by the Government. There has been a complete allure on the part of anybody to put orth claims to the opium. They cohably fear the claws of the Government, and will let the valuable seizure of its estimated to be worth \$1200. ed, revenue officials seized 84 boxes

CONSUMPTION And all the various diseases of the

HEAD, THOAT AND CHEST, Including the Eye, Ear and Heart, specially treated by

M. D., M. C. P. S. O., CONSUMPTION.

M. HILTON WILLIAMS,

The early symptoms of this disease are a sense of wearmess upon little exercise, a disposition to remain passive and dile, a peculia sensitiv ness to the effect of cold, and a short ness of breath upon moving quickly or as cending a bill or stairs, a slight, hacking cough, with or without expectoration, flyin pains throughout the chest or back, or under the shouler biades. The symptoms are we stoward or during the night; slight fever in the afternoon; cold feet and hands and, in man cases, blue lividity of the lips and roots of the finger nails.

The more asymbod symptoms are wasein of licels, diarrhese, chills and fever, high sweats, expectorations of yellow pus from the licers or cavities in the lungs, with or without a depression in the chest, increasing weaters are also as the lungs, causing strangulation; as unfocation of the patient for was of power expectorate the mueue from the lungs.

CONSTITUTIONAL CONSUMPTION.

By this we mean tubercular or blood contemption. It is a disease inherited from of foreparents presenting stelf in the form of the contemption.
